

Virtual Information Session

For Local and Tribal Public Agencies | January 30, 2025 | 10am-12pm MST

The AZ Local Technical Assistance Program Center invites Local, Regional, Tribal, and State agencies in Arizona to attend our virtual information session. We welcome you to join us for what is sure to be an insightful two-hour session!

In this session, we will present an outline of our program offerings, unveil two new courses recently added to our course catalogue, explore the process for your organization to seek workshop training, and launch a new training program promoted by FHWA & the Center for Rural Road Safety.

Finally, we want to hear from you! This event will allow you to connect with our team and share your thoughts and ideas on how we can enhance our services to meet your needs. Time will be allocated specifically for questions and open discussion!
